

Light illuminates.
It makes us see –
it makes us feel.

It is an empowering
form of energy.

Immerse yourself in the
world of PLANLICHT.

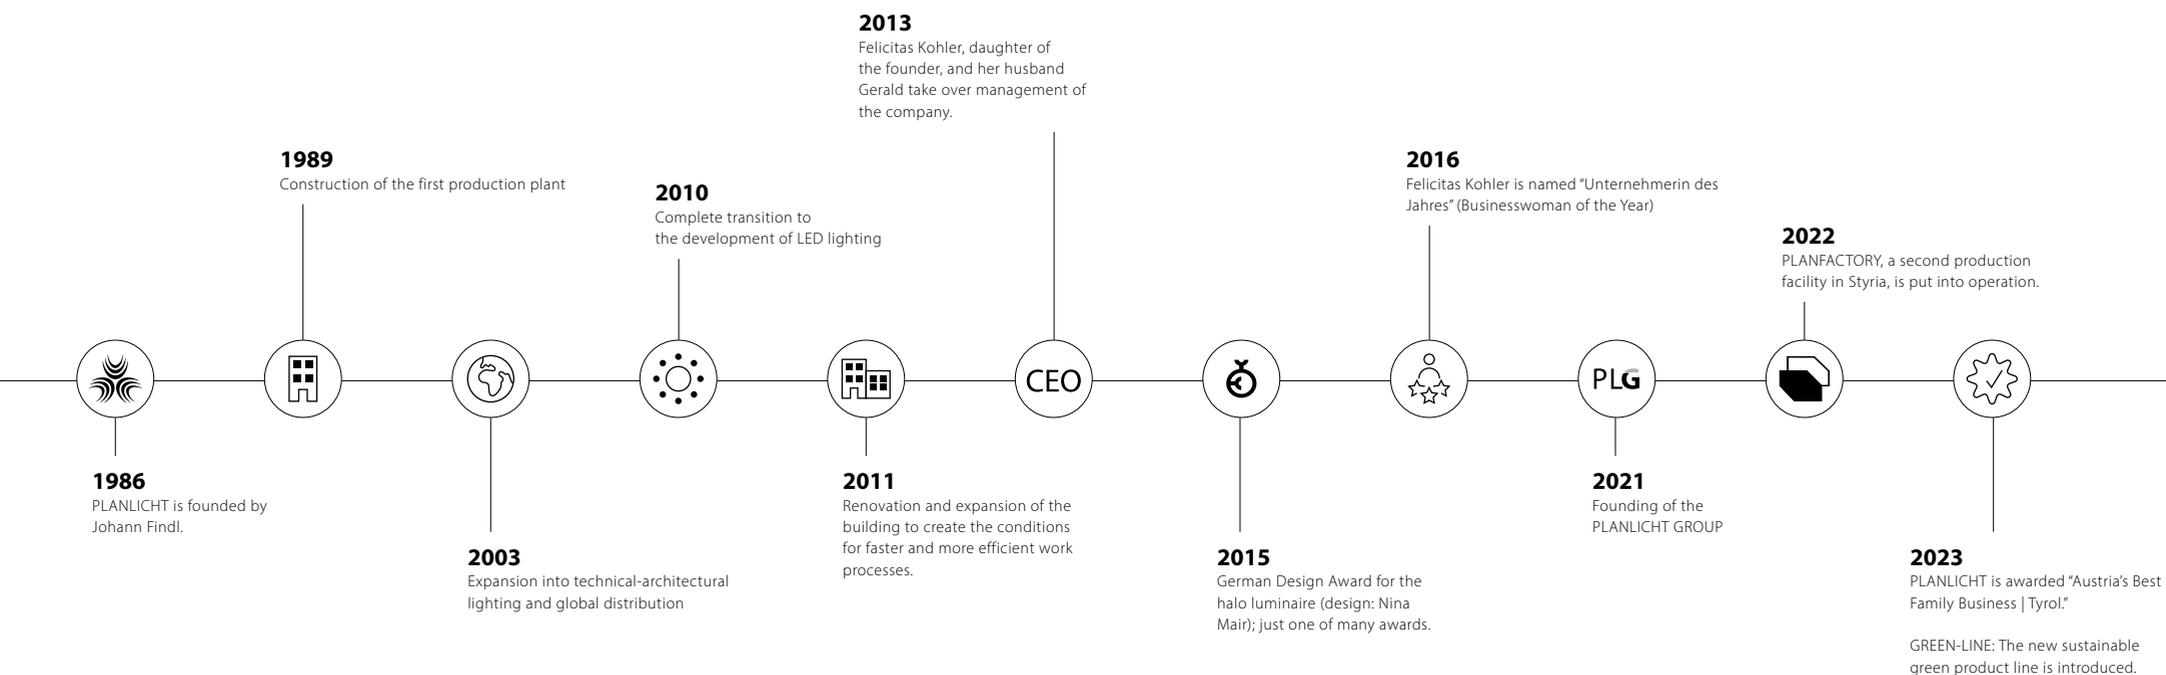

LIGHT IS OUR VISION

Johann Findl first opened the doors to PLANLICHT in his garage in Vomperbach, Tyrol in 1986. What started as a brilliant idea was the beginning of an incomparable journey that continues to this day.

In 1989, a vision emerged from humble beginnings – not just to sell lighting, but to create it. The workbench became a crucible of creativity and every product bore the signature of innovation and quality.

Since that time, PLANLICHT has grown steadily, always remaining true to its promise of delivering the best customised lighting solutions.

Today, PLANLICHT is a multi-faceted company in the lighting industry with around 150 employees and an annual turnover of approximately 24 million euros. The company serves strategic markets in Europe and exports products worldwide.

LIGHTING DESIGN FOR ENHANCED WELL-BEING

Our expertise in Human Centric Lighting (HCL) focuses on individual needs. For us, light is more than just brightness – it follows the natural rhythm of the day: it stimulates in the morning, supports during the day and soothes in the evening. Our intelligent lighting solutions adapt to every situation with variable illuminance and colour temperature.

As industry pioneers, we have equipped all our products with HCL functionality. The benefits of this technology have been scientifically proven to improve concentration and well-being.

At our headquarters in Tyrol, Austria, we also produce acoustic lighting that utilises natural absorbent materials such as hay and sheep's wool to filter out ambient noise. This transforms open-plan offices, for example, into peaceful working environments.

VERSATILITY IN LIGHTING DESIGN

At PLANLICHT we offer a wide range of luminaires in a variety of shapes and styles. From subtle downlights to versatile surface lights and flexible profile systems. Our product portfolio offers customers maximum creative freedom.

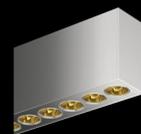

If you can't find the right shape or size for your project, our lighting experts are on hand to help create bespoke solutions. We are more than just a manufacturer of luminaires; we are your partner in lighting design.

Explore our product families such as odelia, olmo, sqing, p.thirty and more. Each family has its own story and is ready to light up your next project.

We offer multiple solutions: Discover which luminaires & lighting systems from the PLANLICHT portfolio are suitable for each type of installation.

At PLANLICHT, light goes beyond mere technology, shaping spaces and acting as an invisible architect of wellbeing.

In the Spotlight: the PLANLICHT GROUP

Founded in 2021, the PLANLICHT GROUP combines PLANLICHT's many years of expertise with innovative product ideas and manufacturing methods. The "Made in Austria" label not only stands for origin, but is also a clear commitment to excellence. Through sustainable design, state-of-the-art manufacturing methods and innovative technologies, we create added value for our customers.

PLANLICHT is an international company specialising in high quality architectural LED lighting solutions. Manufactured in Austria, our products are synonymous with quality, individuality and first-class service.

The CO₂-reduced production facility PLANFACTORY in Murau/Styria, operational since the beginning of 2023, is our expert in metal processing and our commitment to sustainable manufacturing of quality products in Austria.

Since 2020, CARE BY LIGHT, in cooperation with the MCI Management Center Innsbruck, has been developing disinfection devices based on UV-C technology that thoroughly clean objects and room air without leaving any residue.

VON WILDHEIM

organic lamps

ALMUT from Wildheim is a Tyrolean start-up in which PLANLICHT has been involved since 2021. The handmade luminaires made of natural materials, inspired by the Tyrolean mountains, create a special atmosphere.

We stand for a collaborative partnership based on service quality and trust.

Our responsibility

PLANLICHT's commitment to sustainability is based on three fundamental pillars that not only reflect our deeply held beliefs, but also serve as guiding principles for comprehensive and sustainable business practices:

Environment

- High energy efficiency
- CO₂-reduced production
- Short transport routes
- Reduced packaging
- Pollutant limitation
- Repair & recycling

People

- High glare-free visual comfort
- Human-Centric Lighting
- Tailor-made solutions
- High useability
- Socially responsible employer

Economic Viability

- Low electricity costs
- Long product durability
- Attractive value for money
- Low-maintenance products
- "Garantie 66" (extended warranty)

Your advantages

PLANLICHT's commitment represents our unwavering dedication and concerted effort to provide you with distinctive advantages. Our promise to you:

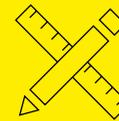

Outstanding Quality

- Sustainably manufactured in Austria (Tyrol & Styria) by skilled professionals
- Rigorous quality assurance
- Easy-to-install & low-maintenance products
- Guaranteed delivery dates

First-Class Service

- Responsive, competent customer service centre
- Comprehensive project support from start to finish
- Collaborative partnership
- Showroom and shop in the heart of the Alps

Customised Solutions

- Versatile product range (housing, light, and cable colours; sizes, sensors, control options, etc.)
- Tailor-made lighting solutions designed by experienced lighting designers
- Infinite possibilities for creative expression

#planlichtpromise

Creative freedom

PLANLICHT presents a versatile range of products that enables highly customisable lighting solutions down to the smallest detail. This flexibility opens up space for individual expression.

Through the expertise of our lighting designers, unique lighting concepts are created – designs that are not only functional but also aesthetically pleasing. The combination of professional expertise and artistic vision makes it possible to shape light in spaces to create a unique atmosphere and unmistakable style.

At PLANLICHT we help our clients to unleash their creativity and transform their individual visions into unique lighting concepts.

CUSTOMISED LIGHTING DESIGN

At PLANLICHT, we are committed not only to innovative and sustainable products, but also to excellence in lighting design and customer service.

Thanks to our extensive expertise in technical-architectural lighting solutions, we have developed a deep understanding of the tremendous potential of lighting design.

Step by step, our highly skilled team translates individual requirements and preferences into reality. Our expertise enables us to deliver both aesthetically pleasing and technically advanced solutions for homes, offices and public buildings.

We design tailor-made lighting concepts that meet the needs of the people who occupy these spaces.

SHINING A LIGHT ON SUSTAINABILITY

Since 2010, PLANLICHT has consistently focused on the exclusive use of **LED technology** to significantly **reduce energy consumption**. Through continuous optimisation, we maximise light output while minimising energy consumption. Our **CO₂-reduced production facility**, PLANFACTORY, combines the highest building efficiency with renewable energy sources.

We increasingly prioritise **plastic-free** and **reusable packaging** throughout our value chain. We actively contribute to resource conservation through local partnerships and short transport routes.

Quality and durability are fundamental principles of our promise at PLANLICHT. In the rare event of a malfunction, our products are easy to repair.

With our new **'green line'**, we are further reducing our environmental impact and continually striving to reduce our carbon footprint.

This sustainable and forward-looking vision is shaped by our environmental awareness and collective responsibility within the company.

PLANLICHT

ACCOMPANY US INTO A BRIGHTER WORLD

As a partner of Leitbetriebe Austria, PLANLICHT not only focuses on economic success, but above all on people. As an innovative and internationally active Tyrolean family business, we offer our employees financial incentives and benefits, as well as varied and interesting tasks in an exciting environment. We promote personal growth and a strong sense of community through comprehensive training and professional development.

As an 'Excellent Tyrolean Training Company' and a 'State-recognised Training Company', we offer apprenticeships to young people with a passion for lighting. A unique rotation system allows them to get to know the whole company and gain experience in different departments.

At PLANLICHT we create a bright and fulfilling future – united by our passion for light and the cohesion within the company.
